OBJECTIVES AND INVESTMENT POLICY

The Fund aims to provide an investment return with a low level of capital volatility whilst maintaining liquidity.

The Fund will seek to invest in a diversified portfolio of Sterling denominated short term debt and debt related instruments issued or guaranteed as principal or interest by sovereign governments, their agencies and instrumentalities, supranational entities, and EU and non-EU corporations and financial institutions. The maximum final maturity for fixed rate securities is up to 10 years in respect of each individual issue. The Fund will aim to achieve a high Aaa rating from agencies such as Fitch, and the Investment Manager intends where possible to manage the Fund according to restrictions imposed by rating agencies in order to maintain the rating. This should ensure a very high degree of safety but will reduce returns compared with higher risk investments. This Fund does not guarantee your money and is not the same as a deposit account.

The Fund is managed and measured with reference to a benchmark, the 7-Day LIBID rate. (The London Interbank Bid Rate (LIBID) is the rate at which banks are willing to borrow from other banks.)
