This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

**Absolute Insight Equity Market Neutral Fund: Class B1p Sterling Shares**  
A sub-fund of Absolute Insight Funds plc

ISIN: IE00B1HL8S66

*This Fund is managed by Insight Investment Management (Europe) Limited*

## Objectives and Investment Policy

The Fund aims to produce positive absolute returns, comprising both income and capital growth, in all market conditions on a rolling 12 month basis. The Fund's benchmark is 3 month Libid and the Fund shall measure its performance against this. In addition the Fund seeks to generate returns of up to 3 month Libid + 3% gross of fees over an annualised five year period, whilst being mindful of the 12 month aim. The Fund seeks to achieve its objective primarily by investment in a broad range of shares of companies traded on stock markets, together with related investments, including derivative instruments. The Fund will have a bias towards UK and European companies. The Fund will also invest in cash and other cash-like investments (including money market instruments) and, bearing in mind the objective of the Fund, from time to time such investment may be significant. A key feature of the Fund is that it invests in company shares whilst at the same time seeking to hedge (or minimise) the market related risks of doing so.

The Investment Manager will use a wide range of derivative instruments, usually where it believes they offer a more effective way of investing in shares, or to hedge market risk. The success of the Fund will depend primarily upon the accuracy of the Investment Manager's views of the relative merits of companies. The Investment Manager has a high level of choice as to how to make investments for the Fund. However, when the Investment Manager is not able to identify investment opportunities offering gains relative to the Fund's benchmark, it will instead remain invested in cash and cash-like investments. This Fund may not be appropriate for investors who plan to withdraw their money within five years. Class B1p Sterling Shares do not pay a dividend. Any income arising is retained in the Fund and reflected in the value of the Share Class. Shares can be bought from and sold back to the Fund on any business day in Ireland. Please refer to the "Investment Objectives and Policies" section of the Prospectus and Fund Supplement for more detailed information.

## Risk and Reward Profile

Lower risk ← Higher risk  
Potentially lower reward Potentially higher reward

- This indicator is based on historical or simulated data and may not be a reliable indication of the future risk profile of the Fund.
- The risk category shown is not guaranteed and may shift over time.
- The lowest category does not mean 'risk free'.

The Fund is ranked in risk and reward category 5 as whilst it does invest in equities, which tend to be more volatile than bonds or indeed cash, it uses derivatives to attempt to reduce volatility.

The value of investments and any income from them will fluctuate and is not guaranteed (this may be partly due to exchange rate fluctuations). Investors may not get back the full amount invested. The Fund is also subject to the following risks which are not included in the calculation of the risk-reward indicator. While efforts will be made to eliminate potential inequalities between Shareholders through the performance fee calculation methodology, there may be occasions where a shareholder may pay a performance fee for which they have not received a commensurate benefit. The Fund may use derivatives for investment purposes. Derivatives are inherently volatile and a small movement in the price of the underlying investment may result in a large impact on the price of the Fund. Whilst the use of derivatives is not intended to cause larger, more frequent changes in the Fund price or increase its risk profile, the Fund may be exposed to additional risks and costs as a result. The Fund may invest in instruments which can be difficult to sell when markets are stressed.

## Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	4.00 %
Exit charge	No charge
This is the maximum that might be taken out of your money before it is invested.	
Charges taken from the Fund over a year	
Ongoing charges	1.16 %
Charges taken from the Fund under certain specific conditions	
Performance fee	10.00 % per year of any returns the Fund achieves above the benchmark for these fees, 3 month Libid.

Please contact us or your adviser for details of the specific entry charges that will apply.

The ongoing charges figure is based on a combination of the investment management fee, a fixed operating charge and certain other expenses as set for 2019 and may vary from year to year.

This figure does not include portfolio transaction costs (other than entry and exit charges, if any, on investments in other collective investment schemes) or performance fees.

The amount of performance fees charged in the last financial year was 0.05%.

For more information about charges please see the "Fees/Charges and Expenses" section of the Prospectus and the Fund Supplement.

## Past Performance

- Past performance is not a guide to future performance.
