ILF EUR Liquidity Fund: Class 1 (Accumulation) Shares
A sub-fund of Insight Liquidity Funds plc

ISIN: IE00BF55FP44

This Fund is managed by Insight Investment Management (Europe) Limited

Objectives and Investment Policy

The Fund is a short-term money market fund which aims to provide investors with stability of capital and daily liquidity. In addition it seeks to offer an income comparable to short-term euro interest rates. The Fund's benchmark is 7 day Euribid and the Fund will measure its performance against this.

The Fund will mainly be invested in various types of money-market instruments, including bank deposits, certificates of deposit and commercial paper. The Fund may also invest in floating rate notes (bonds that pay a variable, rather than a fixed interest rate). It will not invest in a money-market instrument or floating rate note unless it has a rating of at least A1 from a recognised rating agency or, in the case of floating rate notes, a remaining maturity of 397 days or less. Most instruments that the Fund invests in will be issued by companies, including financial institutions. The Fund will only invest in euro-based assets.

The Fund is actively managed meaning the Investment Manager has a high level of choice as to how to make investments for the Fund. When

assessing different investments the Investment Manager will compare their risk, return and maturity profile against those of assets offering the benchmark return. The environmental and social characteristics promoted by the Fund comprise of mitigating environmentally detrimental practices; reducing the production of controversial weapons and tobacco; promoting responsible business practices as defined by the principles of the UN Global Compact; and avoiding corporate and sovereign issuers deemed worst in class from an ESG perspective. Class 1 (Accumulation) Shares do not pay a dividend. Any income arising is retained in the Fund and reflected in the value of the share class. Shares can be bought from and sold back to the Fund on any business day in the United Kingdom.

Please refer to the "Investment Objectives and Policies" section of the Prospectus and Fund Supplement for more detailed information.

Risk and Reward Profile

- Historical data may not be a reliable indication for the future.
- The risk category shown is not guaranteed and may shift over time.
- The lowest category does not mean 'risk free'.

The Fund is ranked in risk and reward category 1 as it invests in cash and near-cash instruments, which tend to be less volatile than equities or bonds.

The value of investments and any income from them will fluctuate and is not guaranteed (this may be partly due to exchange rate fluctuations). Investors may not get back the full amount invested. The Fund is also

subject to the following risks which are not included in the calculation of the risk-reward indicator.

The Fund may hold over 35% of its net asset value in securities of one governmental issuer. The value of the Fund may be profoundly affected if one or more of these issuers fails to meet its obligations or suffers a ratings downgrade.

The Issuer of a debt security held by the Fund may not pay income or repay capital to the Fund when due.

Subscription for shares in the Fund does not offer the same level of security as investing in a deposit account with a bank. The value of shares is not insured or guaranteed and the principal invested is capable of fluctuation. The Fund is an investment fund and not a banking product and whilst preservation of capital is a major component of the objective of the Fund it is not guaranteed. Neither Insight nor any other BNYM group company will provide capital support for the Fund in the event of any capital loss arising within the Fund.
